The Kaiser's Bombshell

Berlin, Nov. 1.—Chancellor Von Bülow's position appears to be "riment" untenable. Far and wide through the empire the newspapers of all parties discuss with varying degrees of interest, amusement and regret the government's explanation of how what purported to be extremely important utterances of the Emperor, affecting three great powers, passed through the hands of the chancellor and a local life of foreign office officials seemingly without having been considered by any of them or even read by most of them, responsible for the delicate foreign relations.

The Emperor finally condones Prince Von Bülow's part in the affair, but the Chancellor's authority and prestige with the country have been so shaken that he may ask the Emperor to relieve him.

The radical Liberal and Socialist journals utilizing the event to urge upon the country a demand for a ministry responsible to the parliament and its people, instead of the continuance of ministerial responsibility to the crown alone.

In addition to the semi-official accounts already published, it is learned that the Emperor handed the manuscript of the interview which appeared in the *London Daily Telegraph*, and the authenticity of which is still undiscussed to Baron Von Cossack, who was attached to his entourage, when the Emperor was absent from the capital a short time ago, as the representative of the foreign office, with the direction to send it to Prince Von Bülow. The chancellor described the note from Von Jenaich which accompanied the manuscript, as referring to the enclosure as an article, and as an interview, so that the chancellor did not think it necessary to give it his personal attention.

The manuscript consisted of a number of small thin leafy sheets, the handwriting being difficult to decipher and the Chancellor referred it to Herr Von Mueller, the Minister at The Hague, who was acting as the Chancellor's private secretary.

The latter, in his turn and without informing the document, sent it to the foreign office, where up to the absence of Herr Von Schöner, the Secretary of Foreign Affairs, it was read by the anti-democratic officials, who did not attach importance to its contents and further examination, until transmitted by one of the Imperial secretaries to Bagdad, whence the *Telegraph* Branch, one of the newspapers that is read in most, at a strategic and military circles described it as "Immense, glibly sent to the world, inflicting the French, Russians, Dutch and Japanese, shilling the British, exciting the Germans and nervous irritation of the press of one people and undermining our neighbors' belief in our reliability."

The while subject is likely to come up for debate in the Reichstag, which will resume on Wednesday.
London, Nov. 2.—The London morning papers comment freely upon what they describe as the "dignified semi-official explanation" from Berlin concerning the Emperor's public interview, and consider that the effect of it will be greatly to increase the

Vancouver Hangings

Vancouver, Nov. 2.—Lee Chung, a Chinaman, charged with killing his partner, Yang Hing in a quarrel in South Vancouver last July, was found guilty this afternoon and sentenced by Justice Clement to be hanged between 10, Lee Chung and Yang Hing were partners in a pig ranch, and evidence showed they had quarreled about the ownership of pigs. Yang Hing's wife was found in the bush recently, backed, and a trail of blood led to the hanging place. Lee Chung's shack and his clothes were also found blood stained. This makes three persons to be executed December 18—Portella, a negro, for murdering Mrs. Jenkins, a negro woman of Vancouver; Jackson, a mulatto, for murdering Mrs. Morrison of Hazelton, and Lee Chung.

MYSTERIOUS ACCIDENT.

Smith Falls, Ont., Nov. 1.—Cyril Gallipoli died at the hospital here yesterday on the result of a strange accident which told him last Tuesday. He and his brother Eliza were cutting wood in the bush. They went down to smoke after their noon tea. A few minutes later they were both unconscious. Eliza recovered about 3 o'clock. He saw his brother sitting on a log a short distance away but neither could tell what happened. When taken to the hospital they both became unconscious and Cyril never rallied. The brother is recovering. It is supposed they were struck by a heavy branch blown from a nearby tree, as high show bruises on their bodies.

AMERICAN JAPANESE AGREEMENT LIKELY.

Tokyo, Nov. 2.—The Jiji Shimpō alleges that the conclusion of an Anglo-Japanese agreement is imminent. However, there is good authority for saying that negotiations with that end have not been opened. It is felt that the idea is a good one, and that steps towards realizing it may be taken after the president's election in the United States. While the Japanese fervently hope for a final settling of national relations with America, this does not imply that they have any misgivings because there is no written alliance, as they recognize the difficulty America would have in getting into any foreign agreement.

FUNERAL OF THOS. GREENWAY

Crystal City, Man., Nov. 2.—The remains of Hon. Thomas Greenway were laid to rest this afternoon in the family burying grounds. A special train bearing the remains of the deceased and thousands from the surrounding country came to honor the ashes of their late neighbor representative and patriot. Many prominent men were present, and numerous friends sent by others. Among the pall bearers was Hon. Robert Rogers, an old time friend and political opponent. Among the mourners were Premier Roblin, Hon. Colin Campbell, Hon. C. J. Mickle, and a host of members and ex-members of the legislature, and bench and prominent professional men.

Chancellor Still Insists

Berlin, Nov. 2.—Despite the fact that the Crown Prince Frederick William visited chancellor Von Bülow here this morning for the purpose of asking him to reconsider his decision to resign, the indications are that the chancellor will persist in insisting as an outcome of the publication of the now famous interview with the Emperor that he should resign. The *Telegraph* of London: "Vindictive statements are made as to his attitude to succeed him."

Berlin, Nov. 2.—Seldom if ever have the responsible heads of the German government had to face such a concentrated fire of indignant criticism as has been called forth by Chancellor Von Bülow's effort to assume the responsibility for the Kaiser's interview published in the *London Daily Telegraph*. So far from having a quiet day, the chancellor's explanation of how the interview got into print has evoked fresh outbursts of unpremeditated upon country, and is greeted by nearly every important independent paper in Germany with mingled anger, amazement and skepticism. On the Conservative, *Reichsboten* loyal to Prince Von Bülow, declares that this explanation only makes matters worse, as it substantiates the fact that the Kaiser made the statement, and also reveals the dangerous incompetency of the foreign office. They say that if the chancellor really wished to throw himself into the breach to protect the Kaiser against a charge of running the nation's foreign affairs single-handed, he should have insisted on the acceptance of his resignation. It is doubtful if Chancellor Von Bülow was washed the impending storm in a Reichstag, as the demand for sweeping responsible administration of foreign affairs in the direction of more reforms is gaining in force.

London, Nov. 2.—It became known today that the plan of campaign, ending the Boer war, which was drawn up by Emperor William and sent to Queen Victoria, according to *Telegraph*, was not communicated to an interview with His Majesty that appeared last week in the *Daily* the British war office. This matter has aroused the fire of criticism who affect to see therein an attempt to rob their fellow countrymen, Lord Roberts, of the glory attached to his success. William Edmond, Socialist, Member of Parliament, has spoken on the subject in the House of Commons this afternoon. The secretary replied that the archives of the war office contained no such document, and that he could find no record of it even having been in the possession of anybody connected with the department. Mr. Edmond wound up his question by suggesting that Mr. Haldane propose Premier Asquith the propriety of appointing Emperor William a seat in the British cabinet, thereby making the situation regular.

NO MEETING BEFORE JANUARY.

Ottawa, Nov. 2.—With several members think the House should meet in December, there is little probability of a meeting before January. One to the recent arrangement many rooms were broken into, and there and the new annex will be ready until the new year.

Record Grain Movements

Winnipeg, Man., Nov. 2.—The wonderfully mild weather for this season still prevails through the prairie west, and it is noteworthy that no snow has yet fallen through the wheat country proper. As a consequence the work of getting out the season's crop has been pushed with great vigor, and it is now practically certain that a far greater proportion will reach the head of the lakes before navigation closes than in any previous season.

This means much to the farmer and community generally, and the effect is already making itself evident by improving collections and larger buying orders for the east. The railway, particularly the Canadian Pacific, have been concentrating their efforts on moving the grain and consequently reports come from Regina of a local coal famine. This is aggravated by the two snow storms in the past ten days in the Maple Creek district which besides causing heavy loss of livestock, has dislocated traffic, especially the toward east movement. Transportation companies, however, will be able to concentrate on fuel supply, and the situation is not serious.

THEATRE.

The coming musical event of the season will be the appearance on Nov. 4 at the Edmonton opera house of the justly celebrated National Opera Company in that sterling opera "The Grand Duchess." Musical attractions are always well liked and representative audiences so the announcement will be hailed with delight by all. The opera is one that has stood the test of time with unimpaired popularity. It is the work of Jacques Offenbach, a French composer of international fame whose many works stand as a living monument to his art. "The Grand Duchess" was first produced in America in the early twenties and has ever since served as a leading offering in the various companies producing comic opera. The score is written in a masterly style, always harmonious, yet light and catchy. The book and lyrics show the work of a genius. The comedy is seldom equalled and never excelled. The company presenting this delightful work is one of the strongest ever organized consisting of well known artists and a most attractive chorus. The costume reflect much credit on the designer, being bright of color yet always blending with excellent taste. A complete scene of the opera is furnished, thus giving a bright and useful opportunity to the audience. The performance is one that gives delight to the eye, charms the ear and extracts joy from the befuddled or tired brain.

The company is under the direction of Messrs. Bissely and Livingston, gentlemen of long and varied experience whose integrity and faithful performance of all promises have earned for them a most enviable reputation among the amusement loving public.

WHAT MENKES EXPECTS.

Vancouver, Nov. 2.—Prominent Liberals declare that all arrangements in which Menkes will take part are on a very high level. They expect that Menkes will be able to provide a most valuable and useful service to the community in connection with the proposed new municipal government in succession to James Dunsmuir, when the latter's term of office has ended. Menkes will have this office for Ottawa, where he expects to be taken into the cabinet if a present negotiation succeed.

Re-Building Of Fernie

Calgary, Nov. 2.—Two gentlemen from Fernie, in the persons of J. R. Lawry and G. G. Moffat, were in the city over Sunday and report that conditions in the third city in British Columbia are progressing more than favorably. In fact, with only one exception, have they lost a business man. The merchants are all enthusiastic regarding the prospects of Fernie, and are in all instances building better than before.

The building material being used is mainly brick and reinforced concrete, chiefly the latter, and the class of buildings now being put up show that the business men of the city do not intend to be again wiped out, providing the proper class of building will survive.

Fire limits, of course, have been extended, and within the area set out all buildings must be of brick or concrete. The coal company will not allow the foreign element to build on their property as heretofore. This move will do away with the possibility of the old town being built up the way it was previous to the fire.

Temporary buildings, area of course, being put up but a law note forth that all frame structures must be removed from the fire limit within ten months from Aug. 4 of this year.

Some 1,500 new lots at present employed in the building of about 100 permanent blocks and buildings, among them being the provincial government structures, to cost \$80,000; school, \$24,000; and city office, \$10,000. Equipment, with the exception of ironing, will be made to this firm, creating the length of time. The city is taking over the telephone and lighting system.

USED THE KNIFE.

Fredericton, N. B., Nov. 2.—A serious stabbing affair occurred at Moncton, N. B., on Sunday night in which an Italian miner named John Endine was assaulted and John McKay and Christopher Pettley victims. McKay was stabbed fifteen times and Pettley seven times, both accounts both are at the point of death.

MAY RUN ON SUNDAY.

Ottawa, Nov. 2.—The railway commission has dealt with the application of the C.T.R. Co. for an order allowing it to handle grain at all ports, make up grain and do other necessary work on Sunday. The order issued by the board nullifies the application of the Lord's Day Act, but accompanying the judgment Judge Meles makes it clear that it is up to the company to show that the work done is necessary.

It says the Parliament dealt very leniently with this vexed question, and the statute was arrived at only after much consultation. A large section of the community looks with a jealous eye upon the act and will regard with much concern any order that may be made enlarging its provisions and extending the exceptions of its prohibition. However, in the view I take, the railway companies cannot under the act or any order which the board may make, be left in any way master of the situation, and may be called upon to justify their action in response to the question: "In better words, the board's framing has been arranged for and will be upon them to satisfy the precedents will be served at the court that the freight movement was one. All arrangements in the city are necessary to prevent undue delay."

cordially invited to attend.

Lauder Scores A Knockout

Calgary, Nov. 2.—Little Billy Lauder had a comparatively easy victory over Jack Keams. Johnny Red's imported phantom, at the Lyric here tonight.

Keams did not show up at a particularly sharp fight and in a fact miscalculation in the sixth Lauder got in a body blow which proved a knockout.

Over 1,000 people attended, and there was plenty of betting. Billy Lauder, who is a fighter, was, in fact, the first, but after that with the exception of the sixth, it was Lauder's fight all the way.

EXCLUSIONS LEADER CONDEMNED.

Victoria, Nov. 6.—At the next meeting of the Victoria Alliance exclusion league a motion was to be introduced impeaching the President, John Jardine, member for Esquimalt. The motion of motion urged as ground for action that Jardine violated the principles of the league in actively supporting Hon. Wm. Templeman and Ralph Smith against Conservative and Socialists, who stood squarely for the total exclusion of Asiatics. The motion ended: "Whereas the attitude of the President has been inimical to the country, and false and reckless to the league, the office befouled vacant and that we now nominate and elect a new president."

THE BULLETIN AGAIN.

Last week a story appeared in the *Bulletin* with regard to the hundred dollar bet which was made between two prominent politicians of different views in this city over the identity of M. A. Harpell, of Vancouver. The *Bulletin's* story was a particularly offensive one, of a distinctly personal character, and was understood as common in that organ. The statement was that the Conservative politician had civilized and humbly begged his Liberal to call the bet off, and return the money. The *Bulletin* kept quite well that when it made these assertions it was not telling the truth, and on the story appearing the Liberal gentleman at once phoned to the *Bulletin* reporter contradicting the story flatly. It might have been expected that interview of that the *Bulletin* would have had the common decency to have retraced the story, forthwith and have expressed some regret for having given it currency. However, there are no Bulletin methods, and the story was allowed to go uncorrected until yesterday, when the *Bulletin* in response to pressure which had been brought to bear on it by the aggrieved Liberal, made a tardy withdrawal in terms which left it in considerable doubt as to whether the first story had not been correct. As it is apparently useless to expect the *Bulletin* to give a fair account of the occurrence, even although the Liberal gentleman is quite anxious that the facts should be honestly stated, we may state that the initiative in having the bet called off was taken by the Liberal.

CURRENT COMMENT

The Journal yesterday deals with a question which may or may not be raised before the end of the year in connection with the municipal election. The Journal produces its editorial on "Civic Administration and Party Politics" with a rather scathing denunciation of John A. McDougall for taking part in federal politics while acting as Mayor of Edmonton. We scarcely agree with the Journal's conclusion on some points. We have no doubt whatever that politics should not be introduced into municipal administration, but we scarcely think that because a man happens to be a legislator or an alderman he should be barred from taking part in the wider interests of the nation. The Journal objects to Mr. McDougall's attitude in having been chairman at Mr. Oliver's meeting. Mr. McDougall had a perfect right to be chairman at any meeting he chose, but Mr. McDougall had not. In other words, as mayor of the City of Edmonton it would have been undignified for him to have given his official presence to either party's platform, but as a private citizen there could be no objection whatever. There is, we fear, across the river, a tendency to allow politics to drift into municipal affairs, and we cannot escape from ourselves the fact that in this matter the press has not been impartial. During the majority of Mr. Grisham's, the Bulletin seemed to have been after his scalp all the time, and the malice-magazine displayed could scarcely have been accounted for by objections to the municipal administration as carried on by Mayor Grisham. On the other hand we have observed that the Journal has taken up an almost similar attitude towards Mayor McDougall, while the Bulletin has around the present mayor thumping timbrels and shouting "Huzzahs". Of course these attitudes may be just a series of coincidences, and we may be blaming both papers unjustly, as in a few quarters this paper was blamed over its opposition to ex-Mayor Mills, although we can assure our readers that politics had as much influence in our mind as the solar system. If politics are being allowed to creep into municipal affairs they should be instantly stamped out. The experience of hundreds of municipalities, both in the new world and the old, has shown that wherever politics becomes the dominant feature high class municipal administration becomes a thing of the past. We believe that on this side of the river at all events politics have obtained no hold at all, most only with a very small fraction of the community. Now is the time for all political parties to make up their mind to avoid the introduction of party politics into civic elections. The sole qualification for the municipal council should be business integrity and ability and a real regard for the common good, and if these qualifications are present we would consider a candidate suitable whatever his political opinions might be.

"The difference in the results in Manitoba and Saskatchewan is the difference between an election won by stupid election lists, bribery and the professional election worker and an election decided by a free and intelligent electorate who went to the polls to record an unbiased judgment on the public issues involved in the campaign."

The above from the Regina Leader is perfect as an example of political bigotry and arrogance. In Manitoba out of ten members eight Conserva-

tives and two Liberals were returned, and in Saskatchewan out of nine members eight Liberals and one Conservative were returned. And yet the Regina Leader has the impudence to assume that the people of Manitoba are blackguards and the people of Saskatchewan saints. And why? Simply because the one province happened to favor the Leader's line of thought and the other does not. Nothing is more calculated to bring the papers into dispute than this style of rubbish. We have not the slightest doubt that the Liberals of Saskatchewan and the Liberals of Manitoba use the same methods and that the Conservatives of Manitoba are quite as good as the Conservatives of Saskatchewan, and we cannot imagine any sane writer getting out to blackguard a whole province because it does not happen to agree with it. We have not the slightest doubt that the government of Premier Scott is quite as prepared to give assistance to studied election lists, bribery and the professional election worker as the government of Premier Roblin, and the Leader is simply insulting the intelligence of its readers when it makes such nonsensical statements. In Alberta and Saskatchewan there are provincial governments which threw themselves heart and soul into the fight on behalf of the government, and in Manitoba there is a provincial government favorable to the opposition and which supported the opposition in the Douglas elections. This would seem to indicate that the population of Alberta and Saskatchewan are in a majority Conservative—a much more reasonable solution of the riddle of the election returns. We believe the methods in Manitoba were the methods of Saskatchewan and Alberta, and the result does not prompt us to say insulting things about our opponents.

Zam-Buk Saves A Farmer's Arm

SOME SENSATIONAL PROOFS OF ITS HEALING POWERS.

Every day brings interesting instances of the use of this wonderful, healing power of Zam-Buk, the herbal balm. Mr. Wm. Singh, a Langesburg (Sask.) farmer, says: "I saved my arm by using Zam-Buk. I had a terrible scaling accident and the arm after the injury took the wrong way. When I started to use Zam-Buk it was all swollen up and discolored, and a fear it would have to come off. In a few days Zam-Buk killed the poison, reduced the swelling, and finally healed the arm." Mr. J. E. Cusick, of 249 Wilson St., Hamilton, says: "A heavy winter I used to have eczema on the back of my hands. Last winter I was especially bad—so bad that I had to be off work for three weeks. While suffering acutely I was advised to try Zam-Buk and did so. It just seemed to dry up and clear away the sores, and in a wonderful short time my hands were cured."

PILES CURED. Mr. Neil Devoe, of Woodstock (Ont.), says: "For eight years I tried all kinds of things for piles, but I got nothing to do me any good until I struck Zam-Buk. That quickly worked is complete cure."

Zam-Buk heals all skin diseases, cuts and bruises, eczema, scalp sores, ulcers, chapped places, scalded skin, sunburn, poison, swollen glands, boils. As an antiseptic it cures rheumatism, sciatica, etc. All druggists and stores sell at 50¢ a box or 10¢ a tin. Send for 10¢ a tin or 10¢ a tin. Send for 10¢ a tin or 10¢ a tin.

THE KAISER'S BOMBING

(Continued from page 7.)

distract of the German foreign office and its methods, had probably lead to great difficulties between Great Britain and Germany. The Daily Telegraph gives no further explanation of the affair, which its Berlin correspondent declares involves Germany in the greatest diplomatic crisis she has encountered since the dismissal of Herr von Schöner, the well known English publicist, who, it has been believed in certain quarters, was the author of the article, denies any connection with it.

Berlin, Nov. 1.—It is reported that Herr von Schöner, secretary for foreign affairs, has tendered his resignation in connection with the recent publication in a London newspaper of the emperor's interview.

COAL SCARCITY AT MOOSE JAW.

Moose Jaw, Nov. 2.—While the local coal situation is not so bad as reported at other points, it is a cause for considerable anxiety. The supply in stock is but small, and dealers have resorted to the expediency of distributing small parcels. The seriousness of the local situation is recognized by the C. P. R., and Shagbush, when in Moose Jaw last week, expressed himself to that effect. Of the wheat haulage in this district has been sacrificed to the interests of the coal supply, and the order has gone to drop every thing and haul coal. Flat cars used for construction on the new Moose Jaw-Edmonton branch railway will be sent to the sides fill and sent to the mines.

NO HALF-WAY REFORM WILL DO.

(Mail and Enquirer.)

Now that the election is over one of the party organs admits what it has denied for months, namely, that the charges of graft are true. It adds the conclusion that there ought to be a movement looking to reform. Discontented officials should be punished, and false friends of the party whose friendship consists of whatever profits they can make, should be held at arm's length. This acknowledgment comes late in the day. A man influenced by worldly motives, and by a proper appreciation of duty to the country, would have made this statement months ago instead of denying the truth until it was impossible for the people to take action in their own defense.

With the case admitted, the question now is, what shall be done? That the dismissal of a few officials will meet the situation is, together to be doubted. As a matter of fact, the thing has not been committed by the officials, but by the crooked politicians who have the country in their grip. The Mayer-McAvity contract, under which the treasury was robbed of \$35,000 was not prepared by officials and officials did not get the money. They had manipulated the means action, and the \$35,000 went into the hands of men high in the councils of Liberalism. It need not be supposed the wielding of the axe over the heads of a number of clerks will settle this issue. What the country demands is something more than this. In the first place, restitution is necessary. The money taken out of the dredging contract, the millions acquired by politicians by speculation in public land, and the numerous "rake-offs" ought to be restored; and to that end prosecutions should be commenced at once. The Minister of Justice was urged months ago to set the law in motion. No reform will be complete which does not result in this way. In addition to restitution, there must be a cleansing out of the evil influence.

Manitoba has done something in this direction with the timber group. It has driven Barthelemy from Parliament, and has hit Shilton so hard that his prestige is forever impaired. The Ottawa politicians, if they want to present a moral aspect, must go farther and cut off the greater element in the West. They must send such men as Pearson and Lodge, McArthur and Walberg, and the Ministry must be reformed by the election of George Graham, Sir Frederick Borden, Dr. Fisher, and the other evil poli-

ticians.

Reform to be practical must be thorough. In the few days of the country we trust this it will be undertaken. With the crooked men out of the Ministry and out of Parliament, and with the timber and the money that have been taken from the country restored to the rightful owner, our position will be greatly improved. We shall have an era of peaceful politics, and good hopes of prosperous times. If the government can reform the change will be applied alike by friends and foes. Turbulent times during the next few years. We have an opposition strong enough to fight the graffer, and eager to commence the war.

It isn't so difficult to strengthen a weak stomach if one goes at it correctly. And this is true of the heart and kidneys. The old fashioned way of doing the stomach or stimulating the heart or kidneys is surely wrong! Dr. Shoop first pointed out this error. "Go to the weak on ailing nerves of these organs," said he. Each inside organ has its controlling or "inside nerve." When these nerves fail then these organs must surely fail. This vital truth is leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. A few days' test will surely tell. Sold by all druggists.

A clergyman writes: "Preventives, those little Candy Cold Cure Tablets are working wonders in my parish." Preventives surely will check a cold, or the Grippe, in a very few hours. And Preventives are so safe and harmless. No quinine, nothing harsh nor sickening. Fine for febrile, restless children. Box of 45 at 25c. Sold by all dealers.

Daily Mishaps

MAKE ZAM-BUK A DAILY NEED.

Scarcely a day passes without some member of the family getting hurt. Maybe the breadwinner's work makes him peculiarly liable to cuts or lacerations; the boisterous youngsters are always running in to mother with bumps and bruises; and housework abounds with painful knocks, burns, scalds, and sprains for the fair sex. Promptly dressing an injury with Zam-Buk means speedy relief from mounting pain. That's why the children like it. But it means much more—that your hurt will heal up quickly and perfectly, without festering, without gathering, and without harbouring disease germs. That's why the "grown ups" like it.

Not here, of L. Original (Oct. 1905). "Five doctors and treatment in three hospitals failed to cure me of chronic sore and burn. They were so bad I could only walk by aid of a stick. Zam-Buk has cured me, and I have got my health again. I am 75 years old and all my life never met with anything to equal Zam-Buk." All druggists and stores sell at 50c, a box or Zam-Buk Co., Toronto, for price, 3 boxes for 40c. Cures cuts, burns, lacerations, abrasions, and all other injuries and diseases.

This Is Said To Help Many

Get from any prescription: phar-

macies the following: Wind, extract Dandelion, one-half ounce, Compound Sassafras, one ounce, Compound Syrup Sassafras, same space.

Shake well in a bottle and take a teaspoonful dose after each meal and at bedtime.

The above is considered as the most certain prescription ever written to relieve Backache, Kidney Trouble, Weak Bladder and all forms of Urinary difficulties. This mixture acts promptly on the eliminative tissues of the kidneys enabling them to filter and strain the uric acid and other waste matter from the blood which causes Rheumatism. Some persons who suffer with the afflictions may not feel inclined to place much confidence in this simple mixture, yet those who have tried it say the results are simply surprising; the relief being affected without the slightest injury to the stomach or other organs.

Mix some and give it a trial. It certainly comes highly recommended. It is the prescription of an eminent authority, whose entire reputation, it is said, was established by it.

A druggist here at home, when asked, stated that he could either supply the ingredients or mix the prescriptions for our readers also recommends it as harmless.

There is a saving that does not cost. There is no satisfaction or profit in saving a few cents on a prescription and getting medicine of an inferior quality. Unless medicine is skillfully compounded by a experienced person, it costs as any price. The thing to look out for is to insist upon, is quality. Quality is the only thing to think of when we buy drugs. If you want the satisfaction of knowing that your prescription is absolutely right bring it here. The price will be reasonable, no more and no less than the drugs and work is worth. No one can fill the prescription as it ought to be filled for less than we shall charge.

Heart Strength

Heart Strength, or Heart Weakness, may be the result of many causes. It may be the result of a weak heart, or it may be the result of a weak blood. It may be the result of a weak system, or it may be the result of a weak mind. It may be the result of a weak body, or it may be the result of a weak soul. It may be the result of a weak heart, or it may be the result of a weak blood. It may be the result of a weak system, or it may be the result of a weak mind. It may be the result of a weak body, or it may be the result of a weak soul.

Dr. Shoop's Restorative

"ALL DEALERS"

Go to the blood, if you are to drive rheumatism. A Wisconsin physician, Dr. Shoop, does this with his Rheumatic Remedy—and with amazing success. Rheumatism, says the doctor, never id cure rheumatism. It is more than kin deep. It is constitutional always. Because of this principle, Dr. Shoop's Rheumatic Remedy is perhaps the most popular in existence. It goes by word mouth from one to another, everywhere. Grateful patients gladly spread the word. It is an act of "hospitality" to all the sick of a way to health. Tell some sick one. Sold by all dealers.
